

# Synergy Matrix™ Core

## OR Integration System

The Synergy Matrix Core system provides in-room 4K video and audio integration while simplifying the installation process and focusing on key functionality.

Using the same touch panel controller as the Synergy Matrix system but with a simplified user interface, this value-driven platform provides both uniformity and familiarity for OR staff while leveraging an intuitive and easy-to-use design. Additionally, the all-in-one switch assembly installed in each integrated room features intuitive controls.

## Key Features and Benefits

**Secondary capture** allows you to save images and videos from imaging devices, such as a microscope or C-arm.

Programmable **room presets** enable one-touch routing for the entire room, including a **Sleep All Displays** mode.

**On-demand and remote support** connect trained Arthrex service professionals.

**Instant visualization** of available sources and displays allows the staff to know exactly what is plugged in and available.

## Project Management Services

A dedicated project manager leads each installation from kickoff to launch. Our professional services include:

- Defining scope of work
- Leading recurring project calls
- Site walk-through
- Floor plan markups
- Material shipment coordination
- System installation
- Staff in-service and go-live support
- Cable pulling and management
